

Tasmania-First Energy Policy
Notice of Motion – Parliament of Tasmania
June 2018

Hon Guy Barnett [*Member for Lyons*] to move – That the House:-

- (1) Notes the Hodgman Liberal Government's Tasmania-First Energy policy commitment to deliver secure and reliable electricity supply and lower prices with a target set to deliver
 - a. 100 per cent self-sufficiency in renewable energy generation by 2022; and
 - b. The lowest regulated electricity prices by 2022
- (2) Further notes the Government's commitment to protect the people of Tasmania from electricity price shocks by capping electricity price increases by up to CPI for three years;
- (3) Further notes the Hodgman Liberal Government's commitment to supporting non-regulated commercial and industrial businesses by extending the energy rebate for businesses in 2018/19 with a further \$10 million for the rebate scheme;
- (4) Acknowledges that the Government's review of the Solar Feed in Tariff has already commenced, with the focus on suitably rewarding and incentivising those Tasmanians investing in solar;
- (5) Further acknowledges the Government's commitment to empower Tasmanian community organisations and sporting clubs with a \$300,000 Community Solar and Energy Efficiency Package to install solar energy systems and modern energy efficient heating appliances; and
- (6) Recognises as a part of the Tasmania-First Energy Policy, the Government's promotion and support of new renewable energy developments in the state such as Cattle Hill and Granville Harbour wind farms.
