Guy Barnett, Liberal Member for Lyons

For the Country Courier

Grant to Help Upgrade Northern Tasmanian Alpine Club

Safety and comfort will be improved at the Northern Tasmanian Alpine Club thanks to funding announced by Liberal Member for Lyons Guy Barnett recently.

Mr Barnett said the Hodgman Liberal Government's Community Infrastructure Fund supports councils and community groups around Tasmania by providing funds to help with local projects.

"The Northern Tasmanian Alpine Club is a great community group that provides opportunities to enjoy the Ben Lomond National Park all year round for many Tasmanians and visitors," he said.

"I was pleased to announce recently that the club has been successful in receiving a \$37,127 grant to help with the refurbishment of some of its bathroom facilities.

"The refurbishment will bring the bathrooms up to a contemporary standard, and through ensuring a regular hot water supply and adequate floor heating it will mean they are more comfortable and safer – particularly in our cold winters.

"This is another great example of how – through our Community Infrastructure Fund – the Liberal Government is helping communities around Tasmania to meet their infrastructure challenges.

"I congratulate the club and wish them well with the project."
