'NO MORE LOCK-UPS' PETITION

TO THE HONOURABLE THE SPEAKER AND MEMBERS OF THE HOUSE OF ASSEMBLY:

Tasmanian Citizens note that the Labor-Green government's Tasmanian Forests Agreement commonly referred to as the 'forest peace deal' has:

- 1. Caused \$700 million lost per year from our once mighty forest industry.
- 2. Caused more lock-ups of our forests including forests that have been sustainably harvested for decades and plantation timber.
- 3. Cost THOUSANDS of jobs.
- 4. Devastated regional communities.
- 5. NOT DELIVERED the promised peace with environmental activists but rather illegal protests and workplace invasions continue.
- 6. NOT DELIVERED the promised pulp mill.
- 7. NOT LED to the promised re-opening of the Triabunna mill.

Your Petitioners therefore request that the Members of the House of Assembly introduce or support legislation to remove this unjust legislation that has no mandate and is destroying our State's world-leading forestry sector.
